

The FAA Safety Team presents:

# **Attention Aviation Maintenance Technicians (AMT): Reporting Helps Save Lives!**

Aviation Safety Reporting Systems are an important facet of the continuing effort by government, industry, and individuals to maintain and improve aviation safety. By voluntarily submitting aviation safety incident reports, you lessen the likelihood of aviation accidents and save lives! Attend this informative briefing and learn how to report an aviation accident, defective part or review data from the various aviation reporting systems. Counts toward IA Renewal!

**Directions:** From Greensboro: I-40 East, take exit 150 (Jimmy Kerr Rd~Haw River) turn right, Alamance Comm. College on right. Follow signs to the Main Building Auditorium. Enter via fabric covered footbridge.

**A message from the National FAASTeam Manager**

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?  
Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
